ABOUT

country of Bosnia and Herzegovina.

I'm Adnan Brkić, a UI/UX Designer and Front-End Developer hailing from the beautiful

In my role as a UI/UX Designer, I enjoy conducting user research, creating wireframes, and developing prototypes using Adobe XD. I am committed to applying best practices

in user-centered design to create interfaces that are both effective and easy to use.

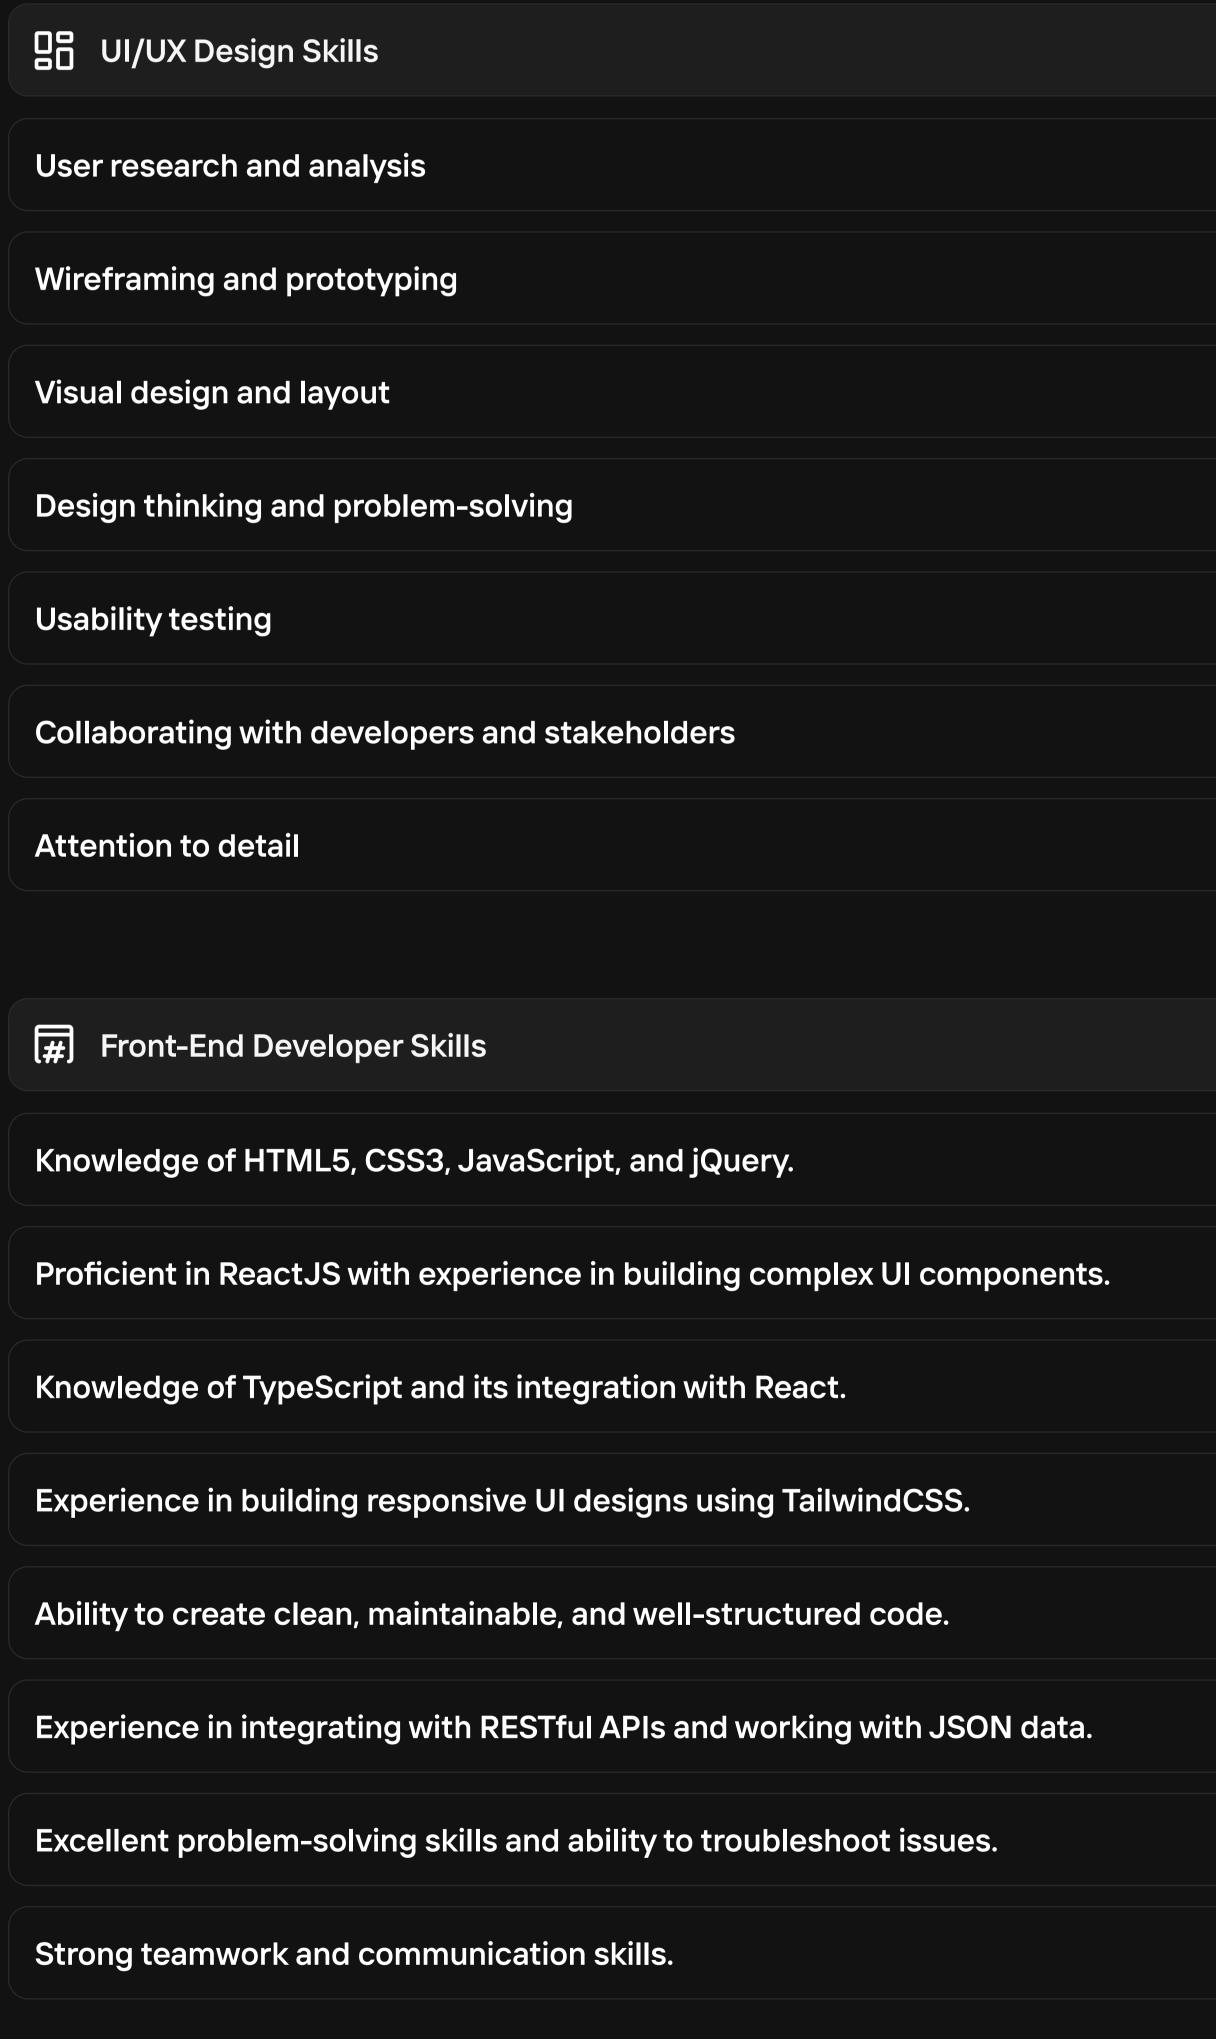

As a Front-End Developer, I am skilled in developing responsive designs using HTML, CSS, and JavaScript, and have experience working with React and Tailwind. I am committed to writing clean, efficient, and scalable code, and always prioritize web standards and accessibility.
